"We Serve"

For over 90 years, our membership has actively been making Taos a better place to live. We welcome new members with the same commitment to service.

Responding to a call from Helen Keller in 1925, to be "Knights of the Blind", the Lions Club has been focused on vision issues. We use up-to-date technology to screen the eyes of every Taos County student (with parental consent) to identify vision impairments as early as possible. We have been proudly providing this free service for nearly twenty years.
